

DUPLICATION SUPPORT SOLUTIONS

DVD/CD SATA Controller 1 to 7/11 Targets

Introducing the new DVD/CD SATA Controller for intuitive duplications (DVD Burner and CD Burner). There are four buttons on the display with LCD panel for easy operations for the novice. PDE Technology Corp offers two versions of the DVD/CD SATA Controller that offers seven and eleven targets. The seven target controller can be converted to eight target controller if the ROM is omitted with duplication from the hard drive for the DVD and CD burner. The economic benefit of this product is being able to operate this unit as a stand-alone product without the need for a PC overhead. The components are the latest in technology for fast and efficient DVD and CD duplications.

PDE Technology Corp is a certified OEM manufacturer in the data storage solutions industry. Value-added resellers, businesses, and consumers have relied on industry standard products from PDE Technology Corp. The key emphasis of the products are based on innovation, efficiency, reliance, and affordable cost for the customers. In today's market of high demand for faster and higher data storage capacity, PDE's engineers and product development team are consistently striving for better solutions to help customers succeed in their businesses.

PDE offers a full line of Duplication Towers under the Zipspin brand and is a leading provider of duplication components and equipment.

Specification of 1 to 7/11 Target Controller

Operation:	Stand-alone without PC
Interface:	SATA
Memory built-in:	128MB DDR3
On-board SATA Port:	9 Ports for 1 to 7
	13 Ports for 1 to 11
Maximum Target:	7 (8 No ROM) for 1 to 7
	11 for 1 to 11
Hard Drive Port:	1
ROM Port:	1
Max Burn Speed:	
DVD ± R: 24X DVD ± R DL: 12X DVD + RW: 8X DVD - RW: 6X	CD - RW: 32X CD - R: 56X
Hard Drive Connection:	Standard Supported Maximum 2TB
Power Connector:	SATA Type
