

DVD/CD STANDALONE DUPLICATORS

Super 15 Tower

The DVD/CD Super 15 Tower is a combination DVD/CD Standalone Duplication System featuring high performance writers, superior drive cooling and ventilation, and powered by the leading duplication controller technology available today. The Super 15 is the perfect solution for applications requiring the high capacity of DVD media, including videography, medical imaging, data backup and interchange, as well as many others. These systems also support CD-R, providing users with dual functionality and versatility. Their user friendly interface combined with simple four button operation allow any novice user to easily duplicate multiple general purpose DVD's and CD's. The Super 15 Tower has many great features such as "Prescan" which ensures you have an error free master disc before you start duplicating.

PART# C15DVD-BLK
